A SANE HUSBAND SENT TO A LUNATIC ASYLUM. Mrs. Bischoff berger and her brother-in-law, Simon Strentz, were arrested in Newark, N. J. yesterday, for attempting to unlawfully deprive her husband of his liberty in order to defraud him of his large property. The circumstances, as alleged, are as follows:—Several months ago Mrs. Bischeff berger, urged by Strentz. induced a physician to give her a certificate, indersed by a drug clerk, of her husband's insanity, and upon this the victim was received at the Trenton asylum, no careful examination being made of his person or papers. Mrs. Bischoff berger paid six months board in advance, and promised a fee of \$20 to Dr. Polhemus, the physician. With Strentz to aid her, she then took measures to secure the property, which is valued at \$40,000. But her husband's friends had become suspicious, and enlisting Dr. Polhe-mus, whose fee Mrs. Bischoff berger had failed to pay, they took steps for the release of her victim. The six menths for which Mrs. Bischoffsberger had paid board having expired, the superin-tendent of the asylum suddenly discovered that Mr. Bischoffsberger was not insane, and wrote ordering her to come and take her husband away. Mrs Bischoffsberger, instead of doing this, sent pay for three months more to the asylum, and told the superintendent to keep her husband longer. She had not quite succeeded in getting possession of the property, it is alleged, and wanted three months to perfect her schemes. But at this point Bischoffsberger's friends interfered, and although the superintendent of the Trenton asylum had accepted the money sent him he was compelled to sur-render his patient. The latter was taken to Newark, where he remains at the house of Mr. Gudalh, who made the affidavit upon which Mrs. Bischoffsberger and Strentz were arrested. The prisoners were committed to the city prison in default of bail .- N. Y. Tribune, 11th.

ALLEGED POISONING OF A CLERGYMAN BY HIS WIFE AND DAUGHTER .- The coroner's jury at Raleigh, N. C., rendered a verdict in the case of Rev. Dr. J. Brinton Smith, supposed to have been poisoned by members of his family on the 1st of October, "that the deceased, J. Brinton Smith, came to his death on the morning of the 1st day of October, 1872, from the effects of strychnine mixed in a dose of seidlitz powders, administered by Frances L. Mann, and that Mary E. Smith was the custodian of the key of a closet in which was found a vial of said poisonous drug." Mrs. Mann is the daugh-ter and Mrs. Smith the wife of the deceased. Dr. Smith was an Episcopal clergyman, and president of St. Augustine college, of Raleigh. The affair has caused great excitement, as all the parties held a high social position. Mrs. Smith and Mrs. Mann were committed to the county jail last evening. Application will be made by their counsel for a writ of habeas corpus. The sentiment of the community is corpus. The sentiment of the community is divided as to the guilt of the parties. The stomach and brains of the deceased were examined by Dr. Genth, of Philadelphia, upon whose professional opinion the jury rendered their

How a Boy KILLED A CATAMOUNT .- The Gainesboro (Tenn.) Sentinel says: "A few days since, on Long Fork, in Macon county, as a young son of Jeptha Horn, about fifteen years old, while returning home through a piece of woods, hearing a noise behind, he turned and saw a large catamount coming toward him, not twenty feet distant. He stopped and drew his pistol, when the animal cronched for a spring. Cool and collected, the little fellow took aim, and, just as it was rising, fired. With a shrill scream of agony it sprang some three feet in the air and fell dead within a few feet of him."

A CURIOUS THEORY .- Professor Lapham of the United States telegraph service, has a curious theory that all the prairies were once heavilytimbered forests, which have been swept away by fires so fierce that they reduced to ashes all but the roots of the buffalo grass. From this novel theory Professor Lapham draws the de-duction that the soil of the prairies is admirably adopted to the growth of trees, and that these vast woodless plains need only have trees planted on them in order to be restored as far as needed to their former condition.
